KIDROBOT Pure Trance Series (\$9.95; kidrobot.com)

Manga artist Junko Mizuno is bringing to 3-D some of her most lovable characters from the *Pure Trance* manga series with these 3-inch vinyl toys. Sold in blind boxes, each figure comes with a character bio and headshot, and some come with accessories. Although they're ultra cute at first look, upon closer inspection, you'll notice that something is a little off. But that's all part of their charm.
